

Brion-Meisels Clip 2

[These facilitator notes provide commentary and ideas that might be helpful as you use these raw video clips with other educators.]

This short clip hints at a lot of elements of this course. It gets at how students are asked to personalize the rubrics for their final project, so they have some say in how their assignment gets evaluated (and thus what is most valued). It also shows that Brion-Meisels is encouraging students to get what they need and want out of the ten minutes, be it working on their rubrics individually, consulting a peer or member of the teaching team, or helping a fellow student. We also get a sense of the little touches to create community, including music and food.
