

Schwartzstein Clip 4

[These facilitator notes provide commentary and ideas that might be helpful as you use these raw video clips with other educators.]

We appreciate how Schwartzstein shares his expertise with students here, highlighting the uncertainty that doctors face in emergency situations. Do you have stories like this that can help illuminate the content and motivate students to learn more? If so, do you have them at the ready? Is there some preparation you could do to make it more likely that you have the right story to share at the right time?
