

## **Arlotta Clip 5**

*[These facilitator notes provide commentary and ideas that might be helpful as you use these raw video clips with other educators.]*

We note here a nice pedagogical choice by Arlotta. She frames a generative, open-ended question with a lot of relevant answers. She then has four students provide different ideas, and once enough of the core content has been mentioned, Arlotta synthesizes the comments into a succinct take-away. Is this something you employ? Is it something you could employ more often?
