

Cockrill Clip 2

[These facilitator notes provide commentary and ideas that might be helpful as you use these raw video clips with other educators.]

Cockrill is only one of the instructors in the room during this class. This clip shows the way that the teaching team works together. How do their ideas build on one another? How might each contribute to student learning? How are they positioned throughout the room? What lessons, if any, might this have if you are a solo instructor in the classroom? Or about how to coordinate with any teaching fellows you might have? Several professors at Harvard recruit teaching fellows whose positionalities and expertise compliment those of the professor, which then allows for team collaboration like what you see here from the instructional team.
