

“Disrupting Traditional Classroom Hierarchies” with John Asher Johnson and Kimberlyn Leary
Full IM Live Session Breakdown
February 21, 2023

Timestamp	Activity	Description
0:14-3:58	Framing	Kimberlyn Leary frames the session with opening remarks about deconstructing traditional classroom hierarchies.
3:59-12:03	Opening the Simulation	John Asher Johnson begins “Astronomy 16,” addressing session participants as though they were his undergraduate students.
12:04-13:51	Introduction of the Small Group Work	Johnson introduces the astrophysics problem that participants will work on in their small groups.
13:52-45:46	Small Group A	One small group works through the problem Johnson has set, writing on the white board and using manipulatives.
45:47-1:17:37	Small Group B	A second small group works through the same problem.
1:17:38-1:28:12	Debrief with Discussant	Leary debriefs with Johnson on how the instructional moves that she observed him making during the demonstration might help to disrupt traditional classroom hierarchies.
1:28:13-1:50:25	Q&A	Johnson fields questions from the audience.
